WORKERS` WELFARE LAND ASSOCIATION HAMBURG E.V. - ACTIVITIES FOR SENIOR CITIZENS

Digital projects in the senior meeting points of the borough of Altona in 2020:

- A **virtual senior meeting** point was developed during the lock down of corona in Hamburg: Elderly people playing games like “Don’t get angry” and they talk to each other virtually.
- A foundation spends 10 iPads for a senior meeting point in a ”social deprived” quarter. Seniors were **educated in using iPads** and they are allowed to **rent** it to make films and photos about their view of life or interests.
- Two iPads sponsored by another foundation are helping a **multicultural** senior meeting point to stay in **contact with their families living far away**, especially in Turkey. It should be possible to **rent** this iPads like a book in the library.
